

As a committee we are very excited about the Peace in the Public Square campaign getting underway in Saskatchewan. The goal we set was to have a print advertising campaign launched in September 2010. We are committed to supporting the churches as they take on this project and to provide resources when possible. This is a church initiative and as such it is up to the churches to get involved. As this project will have the names of specific congregations and/or MC Sask attached to it, we'd like to remind those putting up signs that this should be done through legal channels.
